Dear Mr. Schruhl,

On behalf of the Cowlitz Tribe and Chairman Iyall, Parametrix is conveying (electronically) supplemental information as requested in your letter of September 4 to support the Tribes request for Rule Authorization of the proposed Class V Injection Well(s), including:

- Letter from Chairman Iyall dated December 1, 2015.
- Attachments; Figure 1, 2, and 6 (from the previous hydrogeologic report)
- Outline from the system Operation and Maintenance Manual
- Sampling and Laboratory Procedures Plan (Chapter 18 of the O&M Manual)

We will also provide two hard copies of all of the documents (one for EPA and IHS review). Please review the attachments and if there is any additional information that you require prior to making a determination for Rule Authorization please feel to contact Chairman Iyall or I as soon as possible. We look forward to receiving USEPA's response.

Mike
